

Sandhills Periodontics

PERIODONTICS, LASER, AND IMPLANT DENTISTRY

Sohee K. Park, DMD, MHS | Diplomate of the American Board of Periodontology

Welcome to Sandhills Periodontics! We would like to thank you for choosing our practice for your periodontal and dental implant therapy. Dental treatment is an excellent investment for your medical, physical, and psychological well being, and we feel privileged to take part in your care. We share your same concerns regarding your treatment needs, your financial commitment, and your sacrifice of time. It is our hope that we can help you feel as comfortable as possible during your time spent with us.

Our patients are seen by appointment only, and our time is reserved especially for you. We understand that your time is of great value, and we commit to doing our best to stay on schedule. Please make every effort to notify us 48 hours in advance to make any changes to your scheduled appointments, and five business days for any scheduled surgical appointments.

Your first visit with us will be an introduction to our office and team members, an examination and review of your oral health, and any necessary x-rays needed for diagnostic purposes. At the end of this appointment, you will likely receive a treatment plan that addresses your dental health goals. In addition, we will also plan to review your insurance benefits and help you find a payment option that best suits you.

We have enclosed a patient registration form, and a personal dental and medical health history form. Please complete these forms and bring them with you to your appointment.

If you have any questions or concerns prior to your appointment, please do not hesitate to contact us.

With Warmest Regards,

Dr. Sohee K. Park and the Team of Sandhills Periodontics
